Dear Customer,

This packet is perfect for mastering subtraction facts to 10 as outlined by the Common Core. I have my students do the facts to 12 to give them an advantage.

[CCSS.Math.Content.1.OA.C.6](#) Add and subtract within 20, demonstrating fluency for addition and subtraction within 10.

[CCSS.Math.Content.2.OA.B.2](#) Fluently add and subtract within 20 using mental strategies. By end of Grade 2, know from memory all sums of two one-digit numbers.

I have been asked how much time I give my students to complete the tests. For my beginning first graders, I give them 90 seconds. Some students may need 2 minutes if their fine motor skills are lacking. The goal is to challenge students but at the same time have them feel success.

Once my students complete all of the timed tests at 90 seconds, I have them repeat all the tests again in 60 seconds. This may be too much for your students and you will have to be the one to determine how much you ask of your own class.

I teach 2nd grade and have them complete the tests in 60 seconds.

These are just suggestions. I hope this helps your students learn their facts with automaticity.

Thank you again for your purchase!

Sincerely,
Rebecca
